# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
3. *Mr. Ferrier*—Resolution—That in the opinion of this House the government should immediately extend hospital insurance coverage to persons in chronic and convalescent hospitals or in approved nursing homes, who do not require continued medical and skilled nursing care, but whose condition is such that, in the opinion of the medical practitioner, they cannot be returned to their own home or to a home for the aged.
5. *Mr. Reid (Scarborough East)*—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.
9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) “cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year”. If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated “that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building” and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as “confirming” the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding

in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.
9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the Globe & Mail for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.

10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
12. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—What proportion of the \$48.4 million Supplementary Estimate for School Boards (Order in Council No. 2858-69, July 17, 1969) went to Separate School Boards. What proportion of the total pupil body, under the jurisdiction of the School Boards of the Province of Ontario, is under the jurisdiction of the Separate School Boards.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.

What are the names of all the local authorities involved. How many such requests were received from January 1, 1970, to March 31, 1970. What are the names of all the local authorities involved.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the

23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

### QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) “cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year”. If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated “that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building” and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as “confirming” the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with

the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.
9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the Globe & Mail for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March

12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.

### QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) “cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year”. If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated “that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building” and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as “confirming” the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with

the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.
9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the Globe & Mail for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March

12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) “cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year”. If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated “that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building” and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as “confirming” the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an

elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which

was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.

O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice

potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the General Director of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FISTRADA wrote to 88 countries to sound them out on their participation in FISTRADA which of the following countries were written to: Jugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FISTRADA.

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an

elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which

was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice

potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 12. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—What proportion of the \$48.4 million Supplementary Estimate for School Boards (Order in Council No. 2858-69, July 17, 1969) went to Separate School Boards. What proportion of the total pupil body, under the jurisdiction of the School Boards of the Province of Ontario, is under the jurisdiction of the Separate School Boards.

What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
  
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the Globe & Mail for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Jugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
  
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
  
- Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
  
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
  
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) “cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year”. If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated “that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building” and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
  
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.

Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc.; (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed-Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. What proportion of the total pupil body, under the jurisdiction of the School Boards of the Province of Ontario, is under the jurisdiction of the Separate School Boards.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission. 4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature as to the annual budget of the Ontario Pesticides Advisory Board, and how the budget is allocated. 7. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
  
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.
  
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.
  
27. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many applications for Ontario Housing are still outstanding, bearing respectively appendix letters A, B, C, D, E, F, G, H and J.
  
28. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many charges were laid and prosecuted by the Ontario Securities Commission during the years 1968 and 1969 for breaches of the Securities Act and of these charges how many were withdrawn and how many were dismissed.
  
29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Brown Memorial Clinic, and in other provincial institutions such as the Millbrook Reformatory, per week. Is this therapy mentioned above given by psychiatrists, psychologists, religious, or lay personnel. At the Provincial Reformatory at Guelph, is it true that a good deal of group therapy is given by guards and Salvation Army personnel. Do these guards and Salvation Army personnel have any training in psychiatry. Are there psychiatrists available at the Guelph Reformatory for therapy, and if so, how many hours per week do they spend with inmates at the institution.

33. *Mr. Nixon*—Enquiry of the Ministry—What action is being taken by the Prime Minister of any department for the purchase of the area known as Camp Picton in the County of Prince Edward, in view of reports in the Kingston Whig Standard and the Belleville Intelligencer of April 17, and the Picton Gazette of April 17, to the effect that Piasechi Helicopter Company has changed its intentions about going into business in the Camp Picton facilities. How long has bargaining been going on with the

federal government for the purchase of this property. Does the provincial government have any intention of promoting this area as a centre for small industry.

In the fiscal year 1969-70, how much money was spent by each Department to buy advertising space of all kinds, including monies spent for job application advertisements. 2. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.

If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

How many industries were taken to court for pollution by private citizens in 1967, 1968, 1969. 5. Are all O.W.R.C. reports on specific examples of water pollution public documents. 6. Are specific records kept by all sewage disposal plants in the Province and are they deposited with the O.W.R.C. Are these reports public documents. 7. Under what regulations does the O.W.R.C. allow an industry, municipality or an individual to avoid the specific legislation against all polluting under the O.W.R.C. Act. 8. Is an investigation and a report made on all complaints laid by an individual against a polluter. Is the report available to both the complainant and possible polluter. 9. Is every polluter informed of the complaint and given any specific program of anti-pollution measures. 10. If the anti-pollution program is rejected, what steps are taken by O.W.R.C. 11. Would the Minister list forthwith all the industries and municipalities with whom the O.W.R.C. has an agreement to end water pollution, as promised on April 16, 1970, in the Legislature. (Hansard p. 1591).
41. *Mr. Paterson*—Enquiry of the Ministry—Has the Minister of Mines renewed licences for sand-sucking operations which expired, I believe, at the end of April. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

## QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. Did supervisor advise him to wear a life line. Will the Mine Inspector interview the men not just officials on this matter. If man was advised to wear safety line and refused, why wasn't he disciplined. 10. Was there an explosion prior to incident. At what time. Were there any noxious gases present. 11. Was man struck by anything. 12. Were officials aware of the fact man wasn't wearing a belt and conditions of the area.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
12. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—What proportion of the \$48.4 million Supplementary Estimate for School Boards (Order in Council No. 2858-69, July 17, 1969) went to Separate School Boards. What proportion of the total pupil body, under the jurisdiction of the School Boards of the Province of Ontario, is under the jurisdiction of the Separate School Boards.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
  
25. *Mr. Knight*—Enquiry of the Ministry—Will the Minister of Public Works inform the House what sewage treatment plant processes the effluent from this building and the other buildings in the Queen's Park Complex; and indicate whether he can assure the House that the capacity of that sewage treatment plant is such that we, as Legislators, busy in this building and other buildings in the Complex, are not contributing to the pollution of Lake Ontario.
  
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.

29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed. Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations"

for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

2. *Mr. Peacock*—Enquiry of the Ministry—1. What was the number of permits, the date of each and the period of time each was in effect issued by the Department of Labour to Chrysler Canada Limited in 1968 and 1969 under Part II of the Employment Standards Act. 2. What records are kept by the Department of Labour of overtime hours worked by an employee where it has granted a permit under Part II of the Act. 3. Are permits withheld from employers who have exceeded the provisions of Part II of the Act.
3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23,

1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
7. *Mr. Jackson*—Enquiry of the Ministry—1. The name of each company which has applied for exemption from the processing in Canada requirement of the Mining Act. 2. The name, jurisdiction of incorporation and address of any corporation owning 5% or more of the voting stock of each such company. 3. The name, jurisdiction of incorporation and address of any corporation which is in a position to control each such company. 4. Brief specific details of each exemption granted, the date on which it was granted, the mineral to which it applies, the length of time for which it is granted and the terms and conditions under which the exemption is granted. 5. Statement of the reason for granting each such exemption. 6. The following three percentages aggregating 100% (a) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed in Ontario; (b) The percentage of each of the

12 major metallic mineral resources mined in Ontario in 1969 which was processed elsewhere in Canada; (c) The percentage of each of the 12 major metallic mineral resources mined in Ontario in 1969 which was processed outside Canada. If the foregoing information is not available in precisely the form requested or using the criteria outlined above then the information which will provide the substance of the information requested.

9. *Mr. Good*—Enquiry of the Ministry—How can the Town of Copper Cliff, when advertising in the *Globe & Mail* for police constables, offer in their agreement a non-contributing pension plan, when OMERS Act requires municipal employees hired after July 1, 1965, to belong to OMERS, which is a contributing pension plan.
10. *Mr. Martel*—Enquiry of the Ministry—1. Is the Minister of Mines aware that three men in the last three weeks have been killed while working for Mining contractors in the Sudbury area. 2. In the 3rd fatality on March 12, 1970, was Ray Goudreau working alone. If alone, why. 3. How was he killed. 4. What time did the accident occur. What time did the Mine Inspector reach the accident. O.P.P. 5. Were there provisions for 1 foot eye bolts in the rock to which a life line could be attached near the ore path. Were life lines readily available. If not, what action will the Minister take. Were these eye bolts installed before or after the accident. When. Will all the men who worked in the area be interviewed—re eye bolts and not just supervision. 6. (a) Was the ore path not covered by a steel girder over the open area, which allowed muck to go through. (b) Was it the type opened by air chamber using metal door to prevent anyone falling in when not dumping from ore cars. 7. (a) Was area around ore path slippery (from water). (b) Did Mining Inspector check to see if there was traction on the man's boots. 8. What was last time supervisor, either Inco or Dravo, checked the man on his shift, before the accident. 9. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.

10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards; —give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards; —give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid (Scarborough East)*—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.
17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.

19. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— How many written requests were received in 1969 by the Department of Education from school boards for "consultative Services to School Boards" as described on page 82 of the publication entitled *Ontario Government Services, 1970*. What are the names of the School Boards involved. How many such requests were received from January 1, 1970 to March 31, 1970. What are the names of the school boards involved.
22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform
24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Brown Memorial Clinic, and in other provincial institutions such as the Millbrook Reformatory, per week. Is this therapy mentioned above given by psychiatrists, psychologists, religious, or lay personnel. At the Provincial Reformatory at Guelph, is it true that a good deal of group therapy is given by guards and Salvation Army personnel. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.
17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.
18. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—How many written requests were received in 1969 by the Department of Education for their "consultative Service for School Personnel" as described on page 80 of the publication entitled *Ontario Government Services, 1970*. What are the names of all the local authorities involved. How many such requests were received from January 1, 1970, to March 31, 1970. What are the names of all the local authorities involved.
19. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— How many written requests were received in 1969 by the Department of Education from school boards for "consultative Services to School Boards" as described on page 82 of the publication entitled *Ontario Government Services, 1970*. What are the names of the School Boards involved. How many such requests were received from January 1, 1970 to March 31, 1970. What are the names of the school boards involved.
22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature as to the annual budget of the Ontario Pesticides Advisory Board, and how the budget is allocated. 7. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.
27. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many applications for Ontario Housing are still outstanding, bearing respectively appendix letters A, B, C, D, E, F, G, H and J.
28. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many charges were laid and prosecuted by the Ontario Securities Commission during the years 1968 and 1969 for breaches of the Securities Act and of these charges how many were withdrawn and how many were dismissed.
29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.
17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.
18. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—How many written requests were received in 1969 by the Department of Education for their "consultative Service for School Personnel" as described on page 80 of the publication entitled *Ontario Government Services, 1970*. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliastburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. 22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA?

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Brown Memorial Clinic, and in other provincial institutions such as the Millbrook Reformatory, per week. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.
13. *Mr. Martel*—Enquiry of the Ministry—(a) How many sons and/or daughters of the following received student awards in the academic year 1969-70: Doctors (all types); Lawyers; Dentists; Chiropractors; Teachers; Architects; Accountants; Businessmen; Managers in businesses; (b) How many sons and/or daughters received student awards in the academic year 1969-70 whose parents net earnings were: (a) 10,000; (b) 11,000; (c) 12,000; (d) 13,000; (e) 14,000; (f) 15,000; (g) 16,000; (h) 17,000; (i) 18,000; (j) 19,000; (k) 20,000; (l) 20,000 to 25,000; (m) 25,000 and over.
14. *Mr. Sargent*—Enquiry of the Ministry—How many meetings have been held with neighbouring States of the Union, including New York, Michigan and Illinois, on the problem of pollution in international waters; what are the dates of such meetings; who attended on behalf of Ontario and are reports of such meetings available.

15. *Mr. Ferrier*—Enquiry of the Ministry—How many students have enrolled at the beginning of each academic year in the various courses at the Porcupine Campus of the Northern College of Applied Arts and Technology since it opened in the fall of 1967. How many students have been forced to withdraw each year because of failure in examinations. How many students each year have withdrawn for other reasons. What has been the staff-student ratio in each year. What has been the number of staff employed each year of its operation. How many teachers have been fired each year, and what is the reason given for each firing. How many teachers have resigned each year, and what is the reason for each resignation.
17. *Mr. Makarchuk*—Enquiry of the Ministry—1. What are all the sources of pollution located by the O.W.R.C. which are contributing to the pollution of the Grand River. 2. What action is being taken or contemplated by the Government aimed at terminating this pollution. 3. What are the target dates.
18. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—How many written requests were received in 1969 by the Department of Education for their "consultative Service for School Personnel" as described on page 80 of the publication entitled *Ontario Government Services, 1970*. What are the names of all the local authorities involved. How many such requests were received from January 1, 1970, to March 31, 1970. What are the names of all the local authorities involved.
19. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry— How many written requests were received in 1969 by the Department of Education from school boards for "consultative Services to School Boards" as described on page 82 of the publication entitled *Ontario Government Services, 1970*. What are the names of the School Boards involved. How many such requests were received from January 1, 1970 to March 31, 1970. What are the names of the school boards involved.
22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.
23. *Mr. Reid* (Rainy River)—Enquiry of the Ministry—1. Has the Minister of Health given consideration to the recommendation that the use of the pesticide ALPHACHLORALOSE as an agent for the live capture of ducks should be discouraged. 2. Has the Minister issued a directive discouraging the use of ALPHACHLORALOSE. 3. Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. Would the Minister inform the Legislature who the members of the Ontario Pesticides Advisory Board are, and what is their affiliation. 6. Would the Minister inform the Legislature as to the annual budget of the Ontario Pesticides Advisory Board, and how the budget is allocated. 7. Would the Minister inform the Legislature who the Chairman of the Pesticide Advisory Board is and what staff he is allocated. 8. Can the Minister tell the Legislature what duties the staff of the Ontario Pesticides Advisory Board perform.

24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.
26. *Mr. Shulman*—Enquiry of the Ministry—Can it be arranged so that persons of French-Canadian extraction who have had criminal charges laid against them, have their trial held in French if they so request.
27. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many applications for Ontario Housing are still outstanding, bearing respectively appendix letters A, B, C, D, E, F, G, H and J.
28. *Mr. Renwick* (Riverdale)—Enquiry of the Ministry—How many charges were laid and prosecuted by the Ontario Securities Commission during the years 1968 and 1969 for breaches of the Securities Act and of these charges how many were withdrawn and how many were dismissed.
29. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—When was the decision made by the Ministry to give a grant of \$300,000 to the FESTRADA (The World Festival of Traditional Arts) as noted by the Minister of Tourism and Information in the Legislature of April 16, 1970, (page 1595 Hansard). Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. How much is allocated in the budget for the salary of Mr. Kossar in his capacity as Director General of FESTRADA and what is his salary as the Executive Director of the Canadian Folk Art Council. Is FESTRADA a limited company. Is FESTRADA under any obligation to return funds to the Province of Ontario if total revenues exceed total expenditures. Is the Province of Ontario under any obligation to assist FESTRADA further if total expenditures exceed total revenues. Is there an agreement between the Province and FESTRADA that the accounts of FESTRADA will be regularly audited by an auditor appointed jointly by the Province, the Federal Government, and the Council of Metropolitan Toronto. Has an auditor been appointed. Who is going to book international transportation for the 2,000 performers from abroad. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.

30. *Mr. Shulman*—Enquiry of the Ministry—How many hours of therapy are offered to each inmate at the Alex G. Brown Memorial Clinic, and in other provincial institutions such as the Millbrook Reformatory, per week. Is this therapy mentioned above given by psychiatrists, psychologists, religious, or lay personnel. At the Provincial Reformatory at Guelph, is it true that a good deal of group therapy is given by guards and Salvation Army personnel. Do these guards and Salvation Army personnel have any training in psychiatry. Are there psychiatrists available at the Guelph Reformatory for therapy, and if so, how many hours per week do they spend with inmates at the institution.
31. *Mr. Nixon*—Enquiry of the Ministry—How many provincial employees are there in Prince Edward-Lennox, and for what departments do these employees work.

32. *Mr. Nixon*—Enquiry of the Ministry—Has there been an investigation of the decibel rate at the 24 hour operation of the Premier Gravel Mining Operation in Alton. Have there been any complaints from the residents of the area.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. Bill Pr26, An Act respecting the City of Ottawa. *Mr. Morrow.*  
**PRINTED.**

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

1. *Mr. Ben*—Resolution—That in the opinion of this House the following reforms are immediately necessary in the Health Services legislation of the Province. 1. That premiums be abolished and that the costs of all health services, including hospital services, be met from the total personal income and corporate income tax base of the Province. 2. That all health services, including hospital services, be combined under the control of a single Commission. 3. That coverage for medical services shall extend to one hundred per cent of a negotiated and controlled OMA fee schedule which will detail specialized services at appropriate rates, related to the degree of training, skill and excellence required. 4. That proper coverage should include all paramedical services, including chiropractic, and also the cost of prescribed drugs. 5. That private carrier participation in the Ontario Health Services scheme (OHSIP) shall end by September 30th, 1970. 6. That, meanwhile, refund of administration costs to the private agents shall not exceed six per cent of the gross premiums collected by that particular agent.
5. *Mr. Reid* (Scarborough East)—Resolution—That in the opinion of this House, the Government of Ontario should immediately grant adjustments to present superannuated teachers on the basis of  $2\frac{1}{2}$  per cent per year that each teacher has been receiving his or her pension and should accept the offer of the Ontario Teachers' Federation to undertake an increase in contributions of non-retired contributors up to  $\frac{1}{2}$  of 1 per cent and should amend The Teachers' Superannuation Act to include provision for the escalation of pensions as they relate to increases in the cost of living and increases in practicing teachers' median salaries.
6. *Mr. De Monte*—Resolution—That the present adversary system of Workmen's Compensation in Ontario is unjust and is resulting in severe hardship and unnecessary delay in the settlement of cases, unsatisfactory outcomes and a clear bias against the injured workman.
7. *Mr. Pitman*—Resolution—That in the opinion of this House, the Ontario Water Resources Commission should be reorganized to provide a regional office in every major watershed in Ontario, allowing for complete co-ordination of the activities of conservation authorities, health boards, municipal councils, educational institutions, citizens groups and any other bodies concerned with ending pollution, and that the first task of such a regional office should be the preparation, in cooperation with local bodies, of a plan to end the increasing water pollution in the Province of Ontario, and to restore those waters already polluted to their former state.
8. *Mr. Shulman*—Resolution—That the case of Mikolas Gilewicz, be referred to the Standing Health Committee for a complete investigation.

9. *Mr. Nixon*—Motion for Return—Documents, letters memoranda and reports of all communications between government departments and the officials of the Improvement District of Marathon and/or the Municipality of Marathon concerning the award of a retirement allowance to Mr. L. D. Irwin former Chairman of the Improvement District and present Reeve of the Municipality.
10. *Mr. Reid* (Rainy River)—Resolution—That this House recognizes the serious consequences of water pollution and further recognizes that detergents with high phosphate content contribute substantially to water pollution. That therefore this House recommends that no detergents containing more than fifteen per cent per volume of phosphates be sold in the Province of Ontario after July 1st, 1970.
11. *Mr. Burr*—Resolution—That, in the opinion of this House, fluoride is one of the three worst air pollutants jeopardizing human health and welfare, and that it is urgent that the government initiate an immediate study in Ontario to determine: (a) for infants, healthy adults, and those suffering from ailments such as diabetes, kidney trouble, etc., the MAXIMUM SAFE limit of daily ingestion from all sources, including the inhalation of fluoride polluted air, the eating of food grown on soil contaminated by fluoride fall-out, food grown in soil fertilized by fluoride contaminated phosphates, foods processed or cooked with fluoridated water, the drinking of fluoridated water, and from exposure to fluoride in pharmaceuticals, pesticides, aerosols, etc. (b) the actual range of daily fluoride intake by such groups as infants, adults, sedentary workers and those doing hard physical work.
12. *Mr. Ruston*—Resolution—That in the opinion of this House the Government of Ontario should take immediate steps to reduce the burden of education costs now charged to agricultural land in Ontario.

### QUESTIONS

3. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Did Mr. J. R. McCarthy, Deputy Minister of Education, write to the Secretary of the former Tweed-Hungerford Roman Catholic Separate School Board on September 19, 1968, stating that the Tweed-Hungerford District High School (T.H.D.H.S.) "cannot be sold until arrangements are made by the board having jurisdiction in 1969 for the accommodation of pupils in that year". If Mr. McCarthy made such a statement, is it also correct that in 1969 the new Hastings County Board of Education stated "that the previous Tweed Hungerford District High School Board had sold the T.H.D.H.S. building" and is it further true that at the June 23, 1969, meeting of this board a motion was passed referring to the sale of the T.H.D.H.S. as "confirming" the sale by the previous board. Has the Department of Education forbidden the use of the T.H.D.H.S. as an elementary school by either the Hastings-Prince Edward Separate School Board or the Hastings County Board. If so, on what grounds was this decision made. How many high school students under the jurisdiction of the Prince Edward County School Board attend schools which are under the jurisdiction of the Hastings County Board. Has the Department of Education approved grants to the Hastings Board for the construction of a new high school in Bayside and also approved capital grants

to the Prince Edward Board for the construction of a new high school in Ameliasburg. What are the estimated costs of these two proposed schools and what is the estimated student enrollment for each school for September 1971. Would not the closing of the T.H.D.H.S. cause overcrowding in the Centre Hastings High School. What guarantees exist to protect the present teachers at the T.H.D.H.S. from being discriminated against by the Hastings Board because many of them have differed publicly with the apparent decision of the Hastings Board to close down the T.H.D.H.S.—in the event their school is closed and they must seek transfer to other schools. Does the Department of Education require or recommend that the minimum size of a high school be 800 pupils as implied in the February 18, 1970, memorandum and report by E. T. Morris, Assistant Superintendent of the Hastings County Board entitled "Secondary School Accommodation—Area 2".

6. *Mr. Peacock*—Enquiry of the Ministry—1. Does the decision of the general meeting of medical members of Windsor Medical Services Inc. held in Windsor on Wednesday, 4th March 1970, to wind up the association comply with the Pre-paid Hospital and Medical Services Act. 2. Specifically, what was the recommendation, or recommendations of the Directors of WMS to the medical members. What was the amount of undistributed reserve or surplus in question. How many medical members of WMS were present and voting at the general meeting. Were proxy votes of medical members unable to attend counted at the meeting. If so, did the proxy form contain notice of the Director's recommendation or recommendations. 3. If the decision of WMS Inc. does not comply with the Act, can the Superintendent of Insurance block the distribution of the reserves to members, or recall them if they have now been disbursed.
11. *Mr. MacDonald*—Enquiry of the Ministry—1. What is the present annual salary rate of every deputy minister. 2. If agreement has been reached to increase any or all of those salaries during the 1970-71 fiscal year, what will be the annual salary rate of every deputy minister after the increases come into effect; and what will be the effective date of the increases.

22. *Mr. Deans*—Enquiry of the Ministry—Would the Minister of Financial and Commercial Affairs take whatever action is necessary to have the Department of Consumer Protection, and the Superintendent of Insurance conduct an investigation into the automobile repair industry. The purpose of this investigation would be to ascertain the validity of the claim that a two pricing system is being used by the industry, the result of which is a higher cost levied against those who have automobile insurance coverage with the result being higher automobile insurance premiums.

Has the Department of Health given consideration to the restructuring of the Ontario Pesticides Advisory Board to remove the representatives of manufacturers or distributors of pesticides as recommended by the Royal Commission.

4. Has the Minister given consideration to the restructuring of the Ontario Pesticides Advisory Board as recommended by the Royal Commission to:—give it the responsibility to recommend the appropriate standards for examination and re-examination for licences, but not itself conduct such examinations, thus permitting the raising of standards;—give it the responsibility to serve as a compiler of information on pesticides and pest control and to serve as a source of advice to the government of Ontario and to municipalities requiring information and advice on pesticide matters;—give it the responsibility of instituting or commissioning its own research where information is not available or inadequate, and to maintain a reference library for all available material on pesticides and responsible pest control practices generally. 5. 24. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Do the Training Schools under the jurisdiction of the Department of Correctional Services receive the high school records of teenagers who are sent there. If so, do the Training Schools keep these school records after the young people leave thereby necessitating such young people to give a Training School as the reference for their high school records which could prejudice potential employers against hiring such young people. Is it not true that some young people in Ontario's Training Schools have committed no offense. Should not high school records be sent back to the high schools when the young people leave the Training Schools.

Who were the cabinet ministers on the steering committee of FESTRADA and when and by whom were they appointed.

Are they still members of the steering committee. Is the Ministry aware that the Director General of FESTRADA, Mr. Leon Kossar, is also the chairman of the Toronto Folk Art Council which was responsible for CARAVAN 1969 and that CARAVAN 1969 had a loss of \$18,038 on a budgeted revenue of \$75,038, a budgeting error of 24 per cent of budgeted revenue, and that this deficit was covered, *ex post*, by the Council of Metropolitan Toronto. Who was responsible for the preparation of the \$2.1 million FESTRADA budget submitted to the Ministry. Why did not the budget include any breakdown of the \$250,550 for "General Administration". Why did not the budget include any breakdown of the \$200,000 for payments for "contributions of services, consultants, technical people, etc." and was there any written guarantee that open tenders would be used to select the "consultants". Why did not the budget include any breakdown of the \$750,000 for "accommodations" for 2,000 foreign performers for 15 days (\$25 per day) and is not room and board at York University available for less than \$11 per day. Will open tendering be used by FESTRADA to select advertising agencies for the \$252,000 so allocated. When FESTRADA wrote to 88 countries to sound them out on their participation in FESTRADA which of the following countries were written to: Yugoslavia, Nigeria, Poland, Czechoslovakia, Russia, Haiti, Mainland China, Hungary, Egypt, Greece, Romania, South Africa. If South Africa was invited, is there any guarantee that their performers will not be comprised completely of white performers. What role, if any, will Toronto's ethnic groups have in FESTRADA.
